Work Smarter, Not Harder

Overwhelmed? Stressed out? Frazzled? We tell ourselves that if only we could make better use of our downtime or multitask more cleverly we'd get ahead of the busyness. Something has to give. It is time to stop applying a one-size-fits-all approach to overcoming our busyness.

In this live webinar, you will

- Identify your thinking style preferences based on the Productivity Style Assessment®.
- Learn simple, yet powerful strategies to invest time to drive results and maximize

effectiveness.

- Leverage time and email best practices to proactively execute on work.
- Tame your inbox to save hours each week.

Upcoming Training (STAY TUNED FOR REGISTRATION LINKS)

Mark your calendars!

September 30th at 10AM - WiFi 6 and Troubleshooting WiFi issues with the ever changing WiFi technologies (Presented by Darrell Derosia with Commscope)

Any vendors that are interested in participating and presenting on a topic please reach out to Ryan Warner at the below email address. We still have plenty of open slots to fill.
